

REEFER TERMINAL

The **Reefer Terminal of the Port of Koper**, located in the North Adriatic, is a well-established hub for refrigerated and frozen cargo. Operated by Luka Koper d.d., the terminal combines expertise and modern facilities.

With over **50 years of experience**, our dedicated and skilled team provides **flexible, customer-oriented services** for goods that require an unbroken cold chain:

- bananas,
- various fruit & vegetables,
- chilled & frozen food,
- pharmaceuticals and other temperature-sensitive goods.

Operating **24/7**, year-round, the Reefer Terminal ensures fast, reliable, and high-quality services - whether your cargo is bound for European markets or destined for export.

Close Cooperation with the Container Terminal

The Reefer Terminal works in close cooperation with the Container Terminal, the largest in the Adriatic Sea. The Container Terminal is equipped to handle larger quantities of reefer containers and is located close to the Reefer Terminal. This ensures priority delivery of reefer containers for immediate stripping. From there, cargo can be distributed directly or stored in our facilities, which include:

- Cold storage warehouses,
- Deep freezing cells,
- Banana & fruit ripening chambers,
- IT-controlled temperature and air circulation systems.

Certified Quality and Compliance

Our operations meet the highest international standards, certified by **ISO 9001, ISO 14001, ISO 22000 (HACCP), BS OHSAS and Organic (ECO) Certificate**.

Gateway to the EU Market

The Port of Koper holds the status of an EU Border Inspection Post (BIP), allowing goods to be customs cleared on-site before delivery across Europe, including the UK and Scandinavia. The Port of Koper in fact benefits of excellent road and rail connections with its hinterland markets.

A Strong Port Community at Your Service

Koper's **strong port community**, including experienced **shipping agents and forwarders** specialized in fruit, vegetables and other temperature-sensitive cargo, ensures smooth organisation of transport, customs procedures, including inspections — all available **every day of the week**.
