•
Spoštovani poslovni partnerji,

Vezano na ukrepe za omejevanje širjenja okužbe vas obveščamo, da delo na vseh terminalih v Luki Koper **potekalo nemoteno**.

Kamionski promet:

Minuli konec tedna smo, tudi zaradi odprave omejitev prometa za tovorna vozila ob vikendih in prostih dnevih v Sloveniji, zabeležili porast števila tovornjakov v primerjavi z ostalimi vikendi, na kar smo se ustrezno pripravili in zagotovili nemoteno delo. Z dodelavo sistema za najavo kamionov (VBS) pričenjamo tudi z **delnim brezpapirnim poslovanjem** na vstopni točki v pristanišče in vratarnicah kontejnerskega terminala. **Več informacij v priloženem obvestilu.**

Železniški promet:

S strani Slovenskih železnic smo bili obveščeni, da železniški tovorni promet čez vse mejne prehode in v Republik Sloveniji poteka nemoteno. V pristanišču ne beležimo posebnosti vezanih na nakladanje/razkladanje vagonov.

Vremenske razmere:

Vremenska napoved za naslednje ure predvideva močno burjo, zato lahko pričakujemo občasno omejitev dela predvsem na depoju za prazne kontejnerje. Kot običajno lahko razmere spremljate na <https://www.luka-kp.si/slo/stanje-in-delo-na-terminalih>

Lep pozdrav,

Luka Koper, d.d.

Dear business partners,

In relation to measures to limit the spread of the viurs, we inform you that Port of Koper **remains fully operational**.

Road transport:

On the last weekend we have registered an increase of number of trucks in the port, also due to the suspended limitation for truck traffic in Slovenia during weekends and holidays. We managed to prepare all the processes and ensured smooth truck related operations. We inform you also that we have upgraded the Vehicle Booking System (VBS) functionality that now enables **partial paperless operations for container trucks**. Please find more information **in the attached file**.

Railway transport:

Slovenian railways informed us that rail freight traffic across all border crossings of the Republic of Slovenia is running normally. Loading and unloading of wagons in the port continues normally.

Weather conditions:

According to the forecast, strong wind is expected to endure in the next hours. We might expect occasional limitations, especially on operations at the depot for empty containers. You can always check the situation on <https://www.luka-kp.si/eng/operations-on-terminals>

Kind regards,

Luka Koper, d.d.
