# I. GENERAL TERMS

1.	Luka Koper operates in accordance with pertinent legislation of the Republic of Slovenia, its Concession Agreement, General Acts of the company, General Terms and Conditions, its Quality Manual, this Tariff and the customs of the port, if the application of such is not in contravention of the aforementioned legal provisions.
2.	These tariffs prescribe the prices of services in EUR - EUR. The prices of services are not inclusive of sales tax (VAT), which shall be charged the customer at a rate in accordance with current legislation, except in cases where this is explicitly specified otherwise.
3.	Services and rentals not included in these tariffs shall be charged in accordance with separate written agreements.
4.	Rates and prices established in these tariffs are for services and operations carried out under normal conditions and during ordinary working hours.
5.	The customer is obliged to order operations and services to Luka Koper using the CED – Computer Exchange Data system before 10:30 a.m. CET/CEST on the day prior to the day they are needed, and for the order of operations on Sundays and public holidays by 10:30 a.m. CET/CEST on the last ordinary working day prior to their projected execution. In the event that orders for operations are not submitted in the terms and modes pursuant to these General Terms, Luka Koper shall not bear any obligations in this respect towards the customer. Luka Koper shall accept and confirm an order for operations by sending a plan of action via the communication network by 12:30 p.m. CET/CEST. Luka Koper shall also send the customer an electronic message on coordinated changes, thus confirming the final plan of operations.
6.	Operational orders shall be submitted via electronic mail using the CED between 6:00 a.m. and 9.00 p.m. (21:00 hrs.) CET/CEST. In the event of a breakdown in the customer's computer or communication system, and exceptionally when the reason for incapacity to enter the CED system is on the customer's side, it is possible to order an operation by submitting a written order via Luka Koper's computer system. Luka Koper shall make a separate charge for any such order. The confirmation of the order of an operation by the performer of service shall represent the conclusion of a contractual agreement in accordance with the General Terms and Conditions of Luka Koper d.d.
7.	The customer is obliged to submit Luka Koper orders in relation to the arrival and disposition of all wagon consignments, empty wagons, private wagons or wagons on lease before the hour at which loading/discharging operations have been ordered. The customer is obliged to deliver the order to Luka Koper between 6:00 a.m. and 9.00 p.m. (21:00 hrs.) CET/CEST, also on Saturdays, Sundays and public holidays, when Luka Koper shall perform operations on behalf of its customers which are announced and confirmed using the CED system.
8.	The customer shall deliver all orders and countermands in relation to railway wagons directly to the railway operator Slovenian Railways (SŽ). Luka Koper does not accept any direct responsibility in relation to the railway operator in the event the customer fails to discharge or load the cargo within the time limits set by the regulations on the acceptance and takeover of freight from the railway operator because it did not receive the order or the disposition. A customer who has ordered the movement or delivery, or the loading or discharge of railway wagons, shall be responsible towards the railway operator Slovenian Railways (SŽ) for railway wagon demurrage. In the event that the delay is the fault of Luka Koper, the customer may claim reimbursement.
9.	When ordering services related to work on trucks, the customer must send an announcement to VBS in addition to the disposition. The VBS announcement can also be made by the trucking company in accordance with the specified clients.
10.	In cases where containers are to be stuffed within the terminals of Luka Koper, d.d., the customer is responsible for reporting the temperature and/or IMO- or IMDG data to Luka Koper, d.d. by using the DDD STUFF disposition in which he is obliged to state the vessel's TIC (i.e. the vessel's reference number assigned by Luka Koper on vessel's confirmation), the vessel, the temperature (if required) and IMO- or IMDG data.
11.	The customer may countermand an operational order by 18:00 hrs. CET/CEST at the latest on the day before the day for which the services were ordered, and by 12:00 hrs. (midday) CET/CEST of the last preceding ordinary working day in relation to services ordered for Sundays or public holidays. Countermanding of an operation ordered at PC Car and Ro-Ro Terminal is specifically regulated in the Tariff Provisions per Table 9. Countermanding ordered operations shall be performed in the same manner as ordering operations. If ordered operations cannot be countermanded; namely, an entire shift shall be charged for even if the ordered operations are completed within a shorter period.

	If the customer countermands ordered operations after the prescribed period, the ordered operation shall be charged for in accordance with the appropriate Table tariff. In the event of waiting during performing the operations, or operations are interrupted for reasons which are not the fault of Luka Koper, the customer shall be obliged to pay for the ordered operations according to tariff provisions as well as to reimburse any damages which may be incurred.
12.	Upon direct cargo loading or discharging of vessels, Luka Koper shall perform weighing, marking, sorting and other such activities solely on the basis of prior written order and agreement, payment for which shall be determined on the basis of tariff provisions.
13.	If the tariff rate for Hold - Ship's Tackle - Vehicle operations, and vice versa, is expressed as a single integral amount, said rate shall be divided as follows: 65% of the tariff rate on the vessel owner's account, and 35% of the tariff rate on shipper's/consignee's account.
14.	The customer is obliged to especially order difficult and other additional operations in writing.
15.	Upon the destruction of cargo, customs regulations and ecology legislation must be taken into consideration; such work shall be performed in accordance with a separate written agreement between Luka Koper and the customer.
16.	<p>Working hours at Luka Koper are as follows:</p> <p>for: liquid cargos, ore and coal, vehicles, container freight and trailer cargo:</p> <ul style="list-style-type: none"> <li>- First shift from 06.00 hrs. to 14.00 hrs. CET/CEST</li> <li>- Second shift from 14.00 hrs. to 22.00 hrs. CET/CEST</li> <li>- Third shift from 22.00 hrs. to 06.00 hrs. CET/CEST</li> </ul> <p>for: timber and wooden products, general cargo, perishable cargos:</p> <ul style="list-style-type: none"> <li>- First shift from 06.00 hrs. to 13.15 hrs. CET/CEST</li> <li>- Second shift from 14.00 hrs. to 21.15 hrs. CET/CEST</li> <li>- Third shift from 21.45 hrs. to 05.00 hrs. CET/CEST</li> <li>- On Saturdays, the first shift is from 06.00 hrs. to 13.30 hrs. CET/CEST</li> </ul> <p>Working hours for livestock handling operations at the Livestock Terminal shall be adapted to the working hours of the veterinary inspection office and Slovenian legislation pertinent to this field. Regular working hours for all livestock handling operations are as follows:</p> <ul style="list-style-type: none"> <li>- Monday to Friday: from 06.00 hrs. to 20.00 hrs. CET/CEST</li> <li>- Saturday: from 06.00 hrs. to 13.30 hrs. CET/CEST</li> <li>- Livestock handling operations are not performed during the night-time.</li> </ul> <p>for: bulk cargos:</p> <ul style="list-style-type: none"> <li>- First shift from 06.00 hrs. to 13.15 hrs. CET/CEST</li> <li>- Second shift from 14.00 hrs. to 21.15 hrs. CET/CEST</li> <li>- Third shift from 22.00 hrs. to 05.15 hrs. CET/CEST</li> <li>- Saturday: from 06.00 hrs. to 13.30 hrs. CET/CEST</li> </ul>
17.	<p>Regular working hours at Luka Koper are from Monday to Friday in the first and second shifts, and on Saturday in the first shift.</p> <p>The pertinent tariff is increased for performing overtime operations as follows:</p> <ul style="list-style-type: none"> <li>a) Third shift on Monday to Friday workdays - by 50%,</li> <li>b) Second shift on Saturday workdays - by 75%,</li> <li>c) Third shift on Saturday to Sunday, and all-day on Sundays - by 100%,</li> <li>d) Third shift a day prior to a public holiday as well as all shifts during public holidays - by 150%.</li> </ul> <p>Above stated tariff for overtime operations does not apply to Profit Centre Container Terminal and are defined in TABLE 8 under Item 5000.</p> <p>A customer ordering overtime operations is obliged to pay for overtime operations as well all other related services according to the provisions of this item.</p>

18.	In the event that a customer ordering a Ship's Tackle – Warehouse operation does not appear within 30 days of the performance of such a discharge of a vessel in indirect operation, the cost of manipulation and storage shall be charged to the shipowner, even though the owner of the cargo or its agent ordered the Ship's Tackle – Warehouse operation for the cargo.
19.	The computation of increases shall be affected against the basic tariff rate. The increases are calculated from the basic tariff rate and summed up.
20.	In the event that the customer has not concluded a special Contract about payment or Commercial Agreement with Luka Koper, Luka shall request an advance payment for the services ordered on the basis of a proforma invoice issued by Luka. Luka Koper shall issue a final invoice no later than five days from the date of provision of services. In case that the services provided have been only partially settled by advance payment, the customer shall settle the remaining charge of the services by no later than 15 days from the date of provision of services. In case the customer fails to pay the proforma invoice ahead of provision of services, Luka Koper is not obliged to provide the said services. In the event that the customer objects the invoice issued by Luka, they are obliged to settle the non-contested part of the invoice within the agreed term and file a written complaint on the disputed part within 8 days from receiving the invoice.
21.	In the event that a debtor fails to settle its debt, Luka Koper shall retain a lien on goods in storage, as well as enjoy the right of retention of the debtor's property located within the port zone.
22.	The minimum invoiceable unit of cargo weight is 1,000 kg (metric tons), or 1 m3 for timber cargos, which is always rounded upwards in any computation of quantities over 100 kg above the threshold amount, or 100 dm3 for timber, as per tariff rates.
23.	This Tariff has been adopted by the Management Board of Luka Koper d.d. and shall enter into force as of <b>1st January 2024</b> . In the event of any dispute concerning the interpretation of the English text, the Slovenian original shall prevail.
24.	In all contracts concluded with Luka Koper in which separate provisions refer to the Tariff, this Tariff shall apply.
25.	Luka Koper reserves the right to impose to the cargo owner or to the customer as the user of the warehouse, charges for services: deratisation, disinfection and disinfestation, in order to prevent contamination of warehouses and cargo. Services of deratisation, disinfection and disinfestation upon request of the customer, shall be performed as per a separate written agreement.
26.	Seven days prior to the anticipated entry/exit of cargo, with confirmation upon the day of actual arrival/departure, the customer is liable to notify Luka Koper port entrance gate staff of cargo transports which exceed 4.3m in width and 4.7m in height.
27.	Upon its arrival at the Luka Koper Container Terminal, the container is inspected and data on any visible damage to that container is entered into the information system; as such it is considered damage that did not occur while the container was at the Terminal. As to hidden defects that cannot be detected by the usual inspection, Luka Koper d.d. will be held responsible in the event that the client submits indisputable evidence that said the damage was a consequence of Luka Koper's handling. Difficult to detect minor damages, which have not been entered into the information system, will not be considered the liability of Luka Koper d.d. unless the client submits indisputable evidence to the contrary.
28.	Luka Koper d.d. shall not be held liable for "non-transport damages" on cars as defined in documents by car manufacturers or their logistics providers and documents of their associations or "non-transport damages" as determined by customs.

## TARIFF PROVISIONS PER TABLE 8

1.	The customer is obliged to order operations and services related to work on ships and wagons to Luka Koper using the CED – Computer exchange data system till 10.30 a.m. for the next day and for operations on Sundays and public holidays till 10.30 a.m. on the last ordinary working day prior to their projected execution. The customer may countermand an operational order for work, labor or machinery by 06.00 p.m. at the latest on the day before the day for which the services were ordered, and till 12.00 (midday) of the last preceding ordinary working day (Sunday or the day before holiday) in relation to services ordered for Sundays or public holidays for I., II. and III. shift. For services ordered for Monday (I., II. and III. shift) the customer may countermand the work order till 10.00 a.m. at the latest on Sunday. The condition for the implementation of services as per Items 8104 and 8105 of the Tariff is the confirmed work order and confirmed order (disposition) for the implementation of stuffing and unstuffing of containers by the organizational unit, which shall perform stuffing and unstuffing of containers.
2.	The first and the final day of storage shall be included in the storage charge.
3.	<p>Upon the storage of full containers, the customer's order with CED – Computer Exchange Data system must contain the following data: the carrier, the routing POD (port of discharge), SPOD (seaport of debarkation - transshipment port) and the weight of cargo. Upon the storage of empty containers, the order must include the owner (carrier) of the container.</p> <p>In case of using reefer, IMO or IMDG containers (full containers with dangerous goods or contaminated empty containers) and/or OOG containers, the customer is obliged to communicate the exact value of temperature, IMO or IMDG and OOG data via CED message, in time, prior to all handling operations.</p> <p>The shipowner or shipping agent is with the CED message, obliged to inform the Container terminal correctly and in time about:</p> <ol style="list-style-type: none"> <li>the arrival of the ship indicating the correct voyage number,</li> <li>type, size (ISO code) and ownership of the equipment, unloading and transshipment port and booking.</li> <li>state the VGM weight before loading the ship. The specified data (VGM weight) is the basis for accepting or rejecting the service,</li> <li>temperature of refrigerated containers, IMO or IMDG containers data (when importing and exporting containers by sea and all on each entry by road/rail),</li> <li>correct OOG data.</li> </ol> <p>For any insufficient instructions, Luka Koper shall charge additional fee.</p>
4.	For all other services and conditions not defined in TABLE 8, other provisions of this Tariff and General Business Conditions shall apply.
5.	In order to provide safety in accordance with ISPS standard, an additional 15,00 EUR will be charged for each full container loaded or unloaded on or off a vessel. In the case of transshipment PORT shall charge a lump sum in the amount of 15,00 EUR for each full container. Said amount also includes the eventual delivery or return of full containers from the container storage area to the location at the Container terminal where the Customs Authority RS performs container scanning.
6.	The customer is obliged to announce the arrival of a specific cargo (OOG containers and BBK...) 48 hours before the arrival of the cargo, otherwise the customer is responsible for all expenses that can rise in this title (reject cargo, idle time of the terminal gangs, idle time of the ship,). Luka Koper reserves the right to reject such cargo.
7.	<p>Handling and transport of OOG containers is possible under the below mentioned conditions:</p> <ul style="list-style-type: none"> <li>- gross (bruto) weight up to 35 000 kgs,</li> <li>- OH (over height) up to 100 cm,</li> <li>- OW (over width) up to 50 cm on each side,</li> <li>- end walls up with corners vertically free,</li> <li>- The load must be properly secured for the safe implementation of transshipment manipulations.</li> </ul> <p>For OOG containers within the mentioned range, a regular surcharge on a basic rate shall apply (200%).</p> <p>For OOG containers which exceed the mentioned range is necessary to obtain the prior written approval of the Container Terminal regarding the possibility of handling or transporting of such containers within port limits (transport from the place of stuffing and Container Terminal) and offer (with price and conditions) for handling.</p> <p>In case data (technical data of the cargo, instructions for handling...) that the customer transmits to the terminal to obtain consent and supply for handling, are inaccurate or defective, the customer is responsible for all costs arising from this title (refusal of cargo, idle time of the terminal gangs, idle time of the ship...) or Luka Koper reserves the right to refuse the cargo.</p>

8.	Additional charge for unloading / loading of containers from / to freight trucks outside working hours of Container Terminal gate and DEPO-gate will be charged to the customer placing an order for the service. An additional charge will apply for services performed from Monday to Friday between 23:00 and 06:00, on Saturdays from 15:00 until Monday 6:00 and between holidays.
9.	<p>When ordering services involving dangerous (DG) cargo electronically, the customer shall also enter the following information about dangerous substances: hazard class, substance UN number and packing group. If a container with dangerous goods is not to be stuffed or stripped at Luka Koper, d.d., there is no need to provide a safety data sheet on dangerous goods.</p> <p>In addition to that stated above, any customer ordering services involving dangerous cargo of Classes 1 or 7 shall submit to the shift manager at the Container Terminal and to the Port Security Department of Luka Koper, d.d. the following documentation at least 7 days before handling operations are to be performed:</p> <ul style="list-style-type: none"> <li>- Permit for transport and handling of dangerous substance issued by the competent Ministry. Prior to cargo arrival, all conditions specified in the permit must be met.</li> <li>- Safety data sheet for dangerous goods.</li> <li>- Guidelines for dealing with emergency situations (unless specified in the safety data sheet).</li> <li>- IMO certificate of the manufacturer (compliant with IMDG classification) containing a statement of the consignor on compliance with all safety requirements for the transport and handling of dangerous goods.</li> <li>- Specification of container cargo (parcels, quantities, etc.) issued by the manufacturer.</li> </ul> <p>Dangerous substances of Classes 1 and 7 shall be accepted for transshipment only if:</p> <ul style="list-style-type: none"> <li>- a transshipment offer has been obtained in advance and a transshipment agreement has been concluded,</li> <li>- all necessary information and documentation have been delivered on time.</li> </ul> <p>Late announcement of DG cargo:</p> <ul style="list-style-type: none"> <li>- arrival of a container by truck or wagon - the container cannot be unloaded to the terminal.</li> <li>- arrival of a container by vessel - discharging of container is possible only to a specific position.</li> </ul> <p>In case discrepancy and irregularities are not settled within 24 hours from arrival of the container, or in case of ordering services that are ordered less than 24 hours before their execution, we reserve the right to act on behalf and for the account of the issuer of incoming disposition or CED message to eliminate discrepancies and irregularities.</p>
10.	Item 8507 - Incorrect data on loading/unloading order (DG CODE) applies in case of improper notice of DG cargo on disposition (DVH). Luka Koper reserves the right to recover all the costs that would be incurred due to incorrect announcements of cargo.
11.	In accordance with valid law the customer must provide information about the VGM on disposition (DVH) of the full container at the entrance to the Port of Koper or order the weighing of the full container. Weighing of OOG containers (OOG containers that exceed limits according to Provisions per Table 8, Item 7), containers with DG Class 1 and break-bulk cargo, is possible only according to prior written agreement. Weighing containers with DG Class 7 is not possible.
12.	<p>Storage of full containers - after 31st day of storage, the terminal reserves the right to remove the container from the terminal to the area reserved to long standing container on account of the container owner. Storage of full containers that are on terminal more than 30 days, is charged monthly (once per month).</p> <p>Storage of empty containers at the terminal - after the 14th day of storage, the terminal reserves the right to remove the container from the terminal to the depot on account of the container owner.</p>
13.	Administrative services are those that require additional administration related to the container loading documentation (example: entering of temperature when it is not stated on the DVH or communicated otherwise by e-mail, changing of port names on the loading list / disposition and other).
14.	Terminal does not offer the service of checking of the empty containers and rejects any responsibility related with the status of container in/out condition of the container. Containers which are planned to be taken over at the terminal have to be announced before the vessel arrives. All the costs related to the late announcement of the empty containers planned for take over on the terminal will be automatically charged to the owner of the container (shipping line).
15.	Full containers entering into the area of the Port of Koper must be properly sealed with the "HIGH SECURITY SEAL" in accordance with ISO/PAS norms, valid port regulations and port security measures. In the case of a full "open top" container, in addition to the door, the tarpaulin must be also sealed. Any deviation from the above will be considered as an extraordinary event. This means that the port security office and other competent authorities (customs, police,) will be informed about

	the event according to the Port of Koper regulations. Any further actions related to such container will be carried out in accordance with procedures and instructions received from the mentioned authorities. All eventual additional cost related to such extraordinary event, will be charged to the client who ordered handling of non-properly sealed container.
