Gemini Cooperation

Hapag-Lloyd and Maersk agreed on a long-term operational partnership starting February 2025

- Gemini Cooperation will bring clear benefits to you

Improved **Schedule Reliability**, **On-Time Delivery** and competitive **Transit Times**

A strong partnership in the **East-West Trades:**
Far East/Europe & Mediterranean, Transpacific (excl. India), Atlantic (excl. Canada) and Middle East

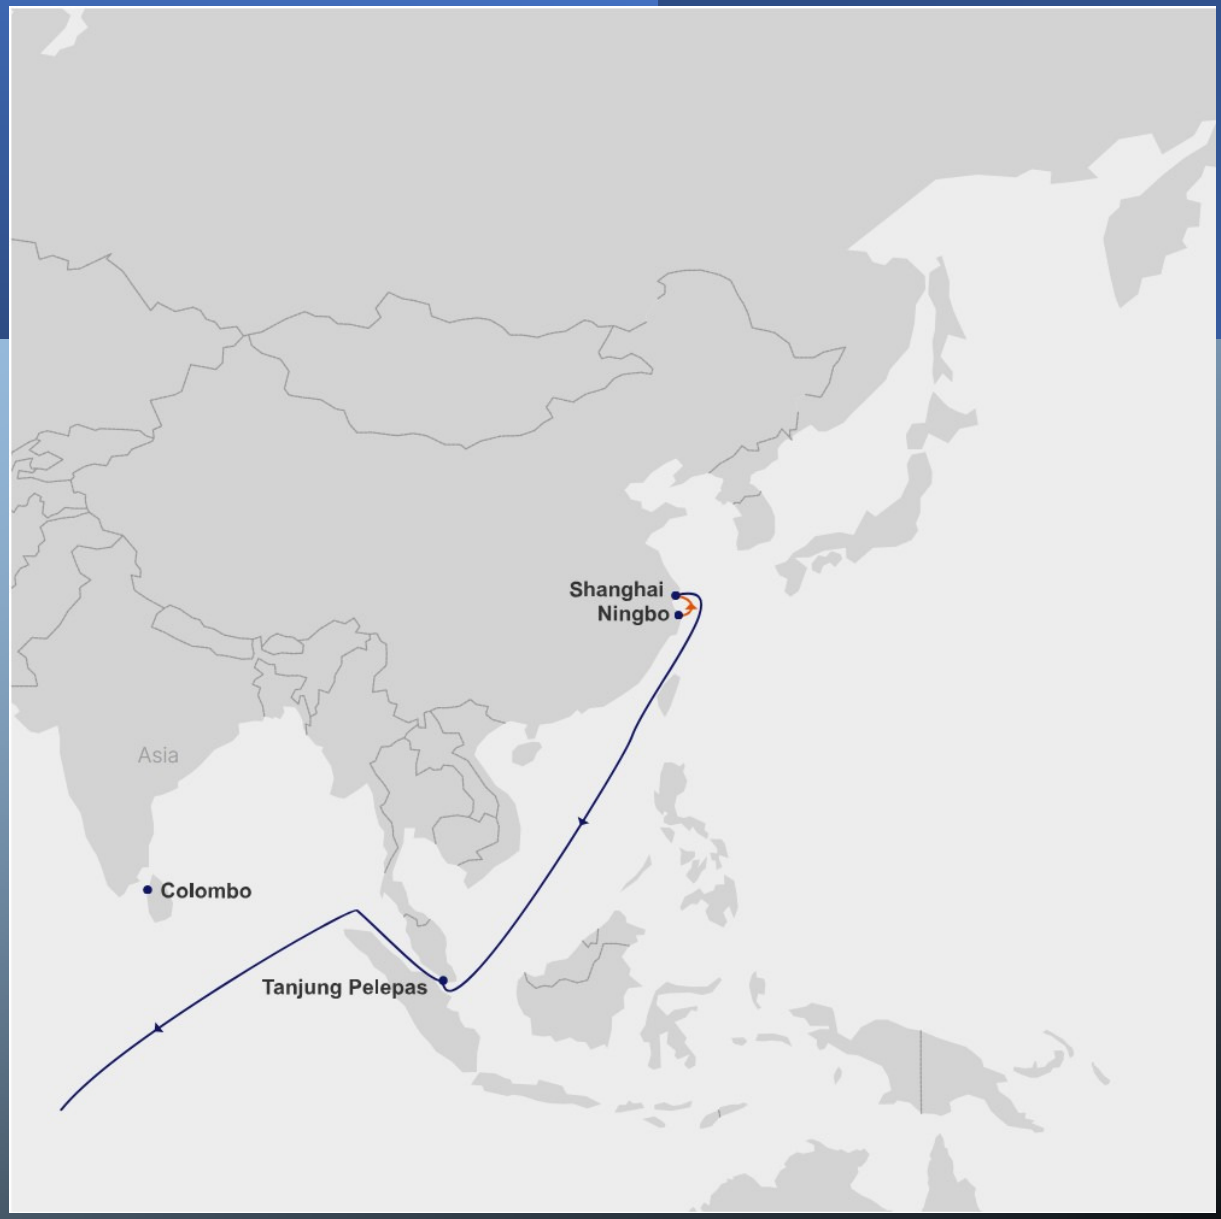

An **innovative Hub & Spoke Concept** with an efficient mainliner network, complemented by a dedicated shuttle network and efficient large tonnage

Strong terminal operations in **Key Hubs** that are (mostly) operated by the partners allowing for **"side-by-side transshipment operations"**

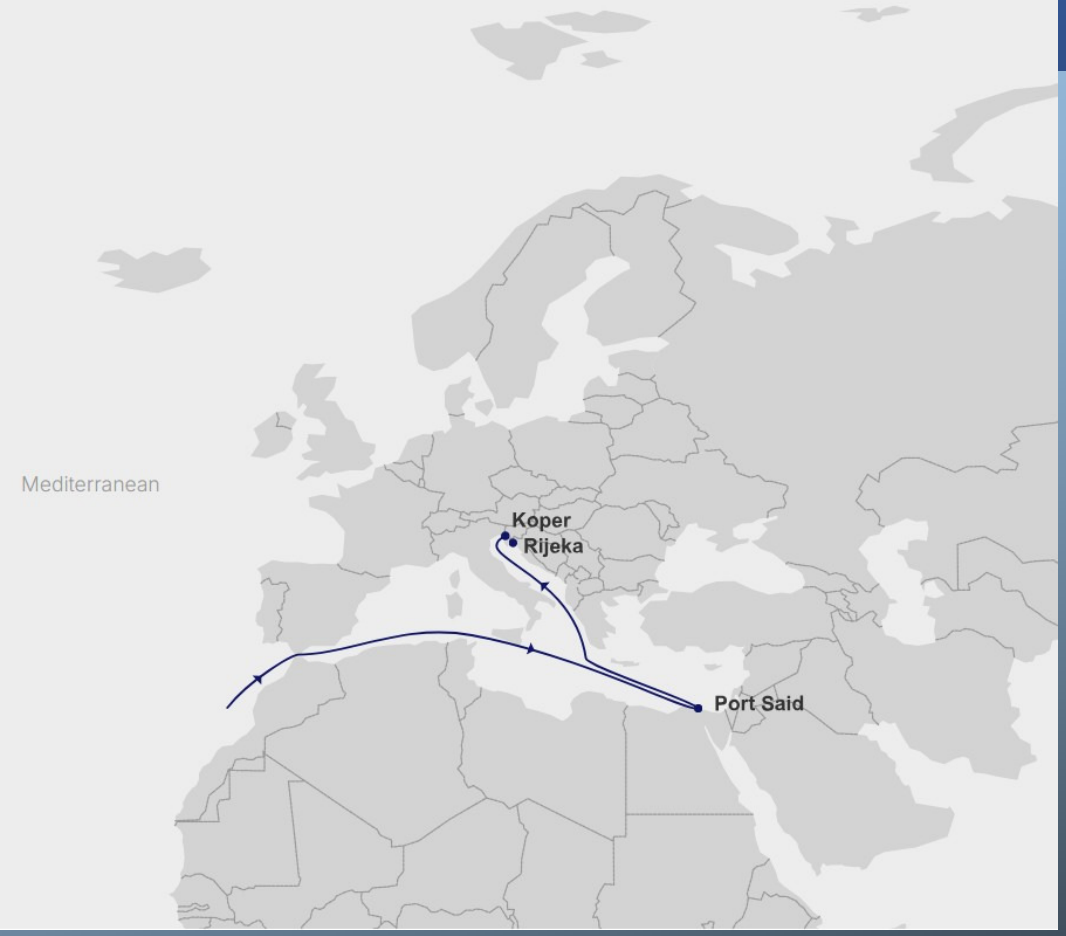

Sustainability Commitments with annually increasing sustainability targets

SE1 Westbound service

Key weekly service to Koper (SI) and Rijeka (HR) as gateways to Central European markets from Central China via the Cape of Good Hope and from Port Said East as last stop before Koper.

SE1
Westbound

- Port Said East (EG) enables direct, fast and efficient connection to Koper port.

Vessels from Port Said East depart regularly every Wednesday and are scheduled to arrive to Koper port every Monday morning.

All vessels of our shipping company Hapag-Lloyd AG on this **SE1 Westbound service** are:

- **A15 CLASS VESSELS**
- **Approx. 15.000 TEUs**
- **1.000 Reefer Plugs**

Gemini Cooperation will enable us to offer significantly higher quality liner services to our customers

Our value proposition …

- RELIABILITY
- CONNECTIVITY
- SUSTAINABILITY

… your benefit

- Enable >80% on-time delivery of your cargo
- Link all your relevant markets with fast and resilient transit times
- Accelerate the decarbonization of your supply chains

IMPORT FROM EGYPT

This service will use Port Said as a transshipment port only until mid-July 2026, after which Port Said will be replaced with new transshipment port
- Algeciras (Spain).

From mid-July (eff wk 30) – ADX service

Hapag-Lloyd

Rotation: PSD-KOP-VCE-PSD à Required for the IRT Europe reefer market and ME volumes to KOP + VCE as coverage will be lost with SE1 shift from PSD to ALG.

Further, Far East volumes to Koper considered which we can't carry on SE1 due to capacity constraints.

A weekly service is planned, with two vesels:
- 1150 TEU/week
- RF: 200-250 plugs

OUR OFFER

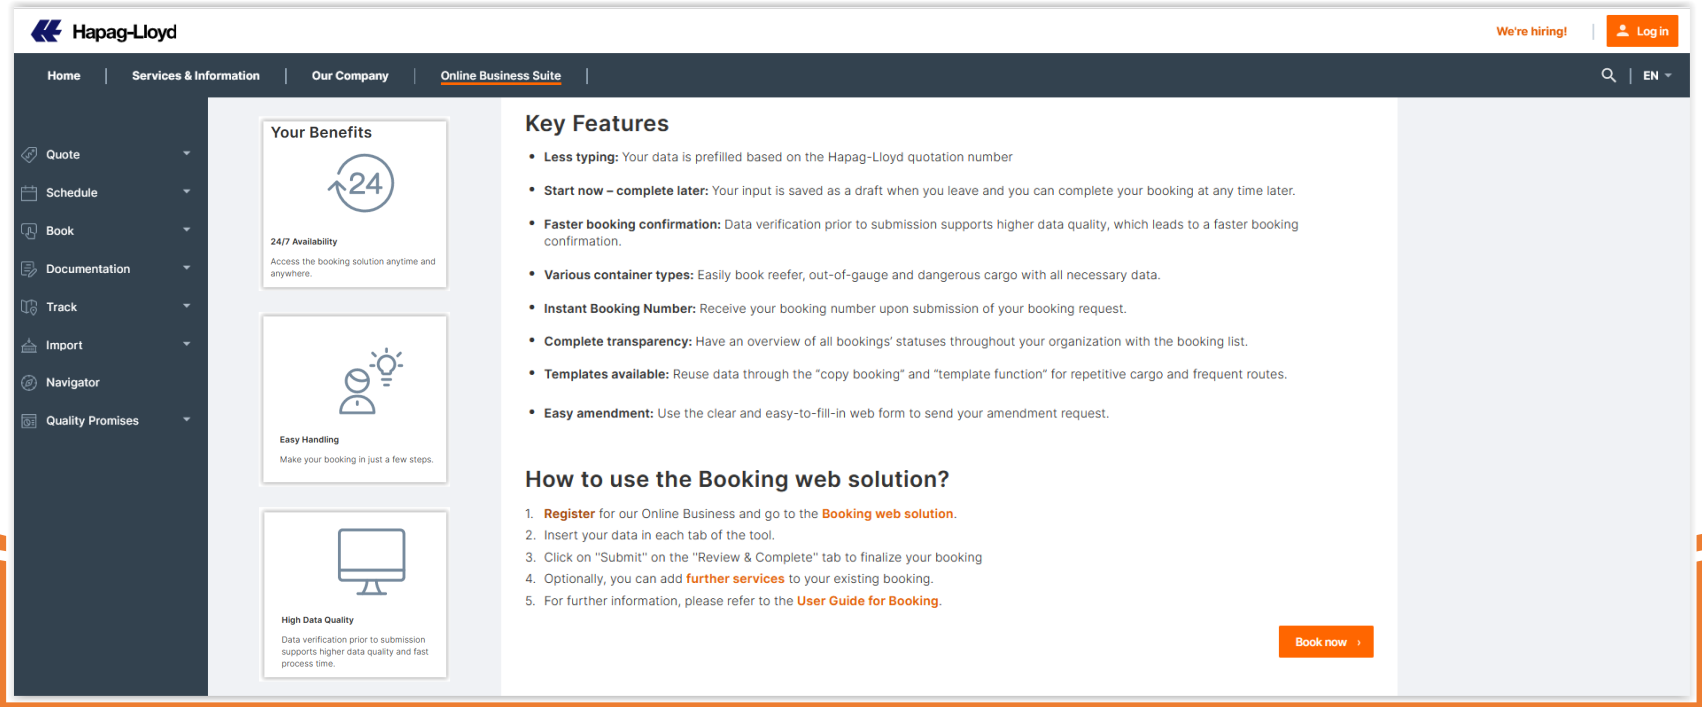

- A wide network designed for your business offering direct connections ex-Port Said and Algeciras to main destinations overseas
- Strong focus on reefer fleet steering to ensure that our equipment is where and when you need it
- A reliable and quality-oriented carrier for reefer transportation with a global network of dedicated reefer experts always available to support you

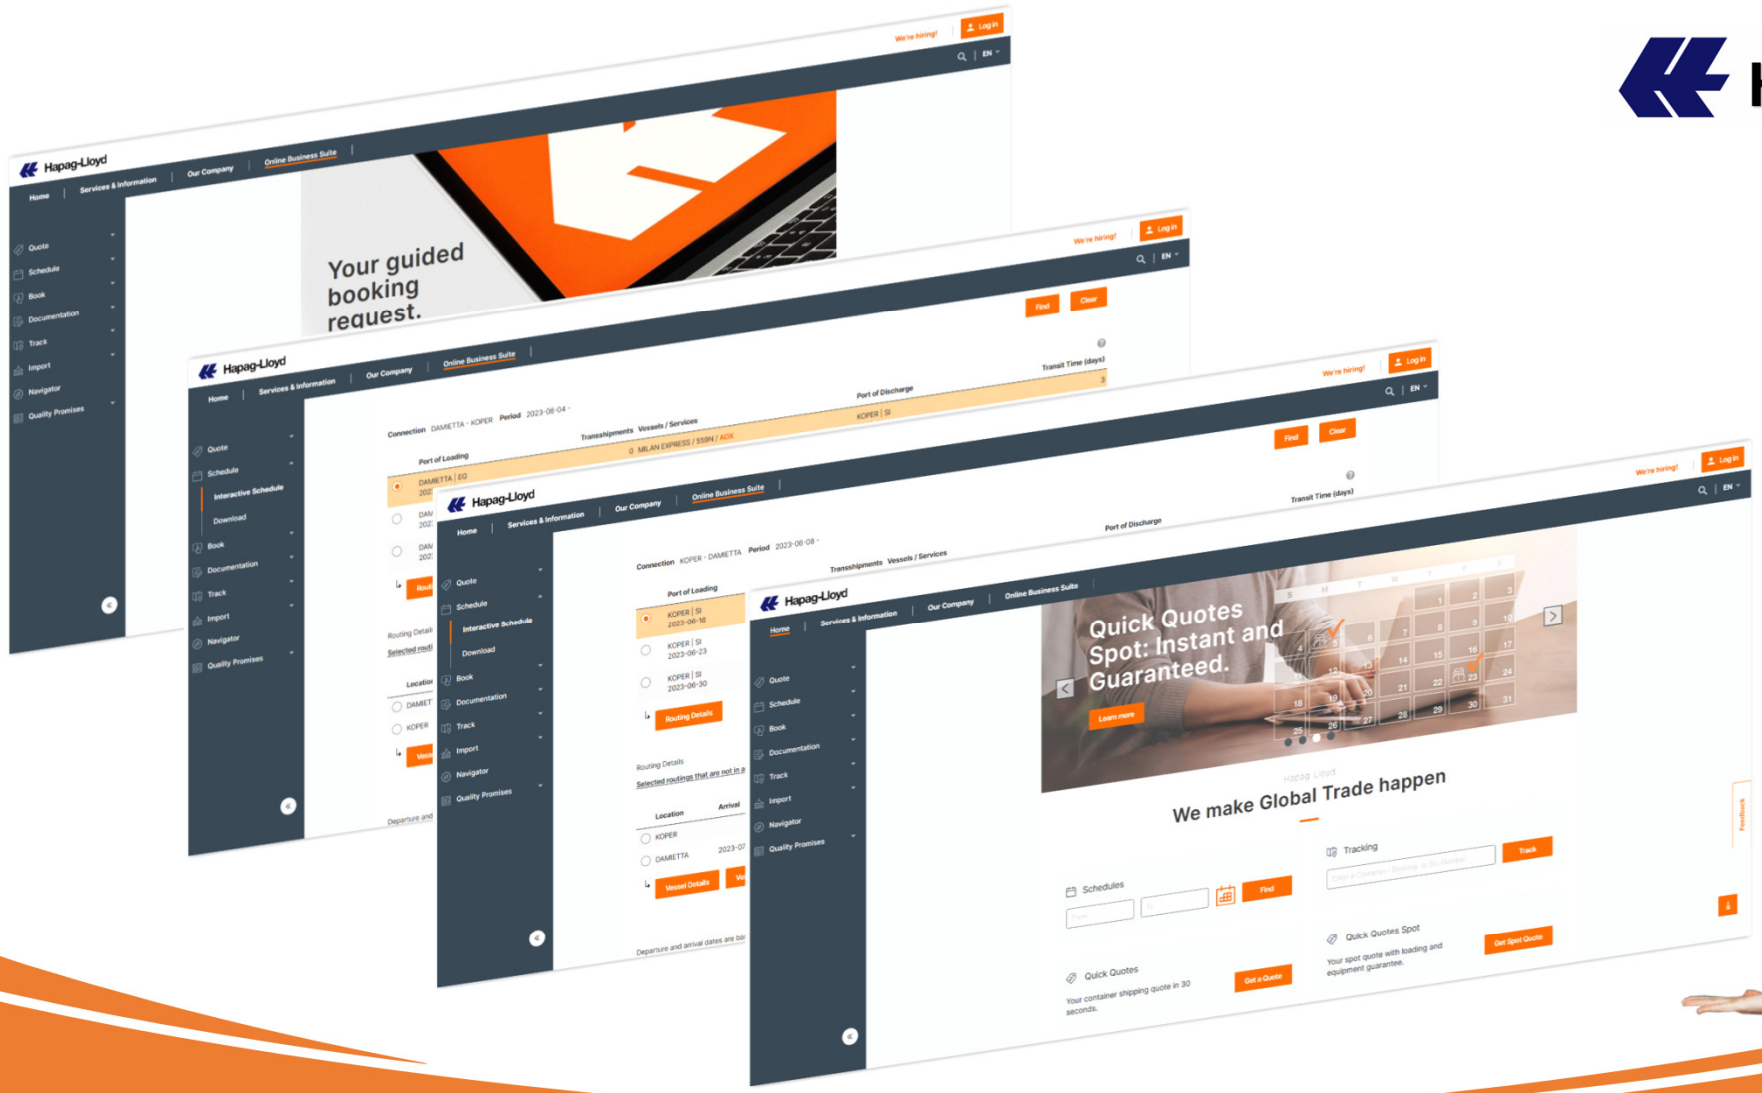

Hapag-Lloyd Export booking

The tool guides you through the process in just a few steps: from contract/quotation data via the routing including interactive schedule, cargo, and equipment, and finally to a review section to manage all your bookings in one place.

Local freight forwarder in Koper usually takes care of all the necessary steps regarding booking procedure and also port formalities

Hapag-Lloyd

“We care. We move. We deliver.”
